Gary –

Looks like we are missing one CLP data package. Michelle is trying to track it down and Mark will update the data tables once received (including the new Removal Screening Levels). I'll put together the volume estimates based on Residential, Industrial and Removal Screening levels and have those to you next week. I'm not in the office today, but I'll also provide you a weekly cost summary along with our remaining budget. Let me know if you need anything else.

Thanks,

Jeff Wright, CHMM
